

# PSA-COM Quick Start Guide

www.obdtester.com/psacom-www.secons.com-support@secons.com

### **PSA-COM** software and drivers installation

- 1. Insert attached CD to your CD-ROM.
- 2. Run installation file PSAComSetup.exe
- 3. Choose language of installer

4. Choose your destination folder for PSA-COM

🗒 SECONS PSACom - Peu	ıgeot Diagnostic Tool Setup: Installation Folder 🛛 🔲 🗖 🔯					
<b>B</b>	Setup will install SECONS PSACom - Peugeot Diagnostic Tool in the following folder. To install in a different folder, click Browse and select another folder. Click Install to start the installation.					
Dest	Destination Folder					
G	Program Files\PSACom Browse					
Space Ca	required: 4.2MB available: 69.8GB ancel Nullsoft: Install System v2:46 Install					

PSA-COM interface drivers are automatically updated during PSA-COM installation. When prompted to install "unsigned" drivers, click on "Install this driver software anyway" (Microsoft® Windows® 7) or "Continue Anyway" (Microsoft® Windows® XP.).

Windows can't verify the publisher of this driver software	Hardware Installation The software you are installing for this hardware: ELM-USB Interface
Don't install this driver software You should check your manufacturer's website for updated driver software for your device.	has not passed Windows Logo testing to verify its compatibility with Windows XP. [ <u>Tell me why this testing is important</u> .] Continuing your installation of this software may impair or destabilize the correct operation of your system
Install this driver software anyway Only install driver software obtained from your manufacturer's website or disc. Unsigned software from other sources may harm your computer or steal information.	either immediately or in the future. Microsoft strongly recommends that you stop this installation now and contact the hardware vendor for software that has passed Windows Logo testing.
( ) See details	[Continue Anyway] STOP Installation

Microsoft® Windows® will automatically install drivers when you plug-in the PSA-COM interface to USB port.

You should not be connected to a vehicle until now.

Please note: all program files (including updates) and documentation are available on enclosed CD-ROM or downloadable from <u>www.obdtester.com/downloads</u>.

# Connect PSA-COM to the vehicle – starting with diagnosis

- 1. Connect the PSA-COM interface to your computer. LED indicator should start blinking.
- Connect PSA-COM to OBD-II connector in the vehicle. If you cannot find location of the OBD-II connector, you can use PSA-COM location image database, available under *OBD-II Connector location* from main menu:

- 3. Set-up PSA-COM application
- 4. Select *Settings* from PSA-COM main menu and configure PSA-COM interface port. If no ports are shown, click *Refresh* button. Then choose appropriate port and click on *Test Interface* to make sure everything is OK. Then you should see updated interface information. Click on *Apply changes* or *Save changes* button to save changes and return to main menu.

PSComAP 0.1.1472	
	Device Manager
	Activate license

Your computer is ready to connect to control units now. In main menu, you can use either direct control unit selection (by clicking on *Select Control unit* button), or perform *Auto-scan* that will list all control units present in the vehicle. Before you get to choosing the control units, you must enter exact vehicle model, otherwise diagnosis may fail.

## **Reporting faults**

In order to resolve any issue, please provide us with following information:

- Car information (VIN code, model, manufacture year, engine)
- ECU snapshot ("Control Unit Identification" → "Save ECU information")
- Log file (save it after operation failure in "Settings"  $\rightarrow$  "Save Debug")

#### Description of problem and required data described above please send us to support@secons.com.

If you encounter any other difficulties, please do not hesitate to contact us at <u>support@secons.com</u> or call us at +420 222 743 723 or +1 360-469-0472 (operated from Europe).
